INDEX TO VOLUME X

The asterisk (*) preceding the page number indicates an original article in this Journal. The letter T preceding the page number indicates a paper reported in the Transactions of the American Association of Neuropathologists. The letter D preceding the page number indicates a discussion of an original article or some other item published in this Journal. The letters ab preceding the page number indicate abstracts of articles published elsewhere. Subject entries are made for all articles. Author entries are made for original articles and Society Transactions.

ABSENCE of regeneration in the spinal cord of the young rat, *420
Adams, Raymond, D., D101
see Fisher, Miller, T92
Alexander, Leo, D99, D104
Alpers, Bernard J., see Madow, Leo, T102
American Association of Neuropathologists, Annual Meeting, Atlantic City, N. J., June 11, 1950, T88
Aminoquinolines, neurotoxity of the 8-. III. The effects of pentaquine, isopentaquine, primaquine, and pamaquine on the central nervous system of the rhesus monkey, *231
Amyotrophy, hypoglycaemia from islet cell tumor of pancreas with, and cerebrospinal nerve cell changes. A case report, *57
Annual Meeting, American Association of Neuropathologists, Atlantic City, N. J., June 11, 1950, T88
Antigen, spinal cord, tuberculin type sensitivity to, in rabbits with experimental isoallergic encephalomyelitis, T96
Arsenic, histophysiological effects of, and its derivatives on the central nervous system, and particularly on the third element of the central nervous system, *325
Arteriosclerosis, observations on cerebral, *257
Astrocytoma, cerebellar, *343

BENDA, Clemens E., D99
Bergman, Philip S., see Globus, Joseph H., *208
Berkman, James, Netsky, Martin G., and Zimmerman, H. M., malignant lymphomas within the central nervous system, T100
Berman, A. J., see Tarlov, I. M., *158
Berthrong, Morgan, and Sabistion, David C., cerebral lesions in congenital heart disease, T98
Book reviews:
Alström, Carl Henry, a study of epilepsy in its clinical, social, and genetic aspects, 451
Courville, Cyril B., pathology of the central nervous system, 341
Evans, Joseph P., acute head injuries, 106
Riese, Walther, principles of neurology in the light of history and their present use, 452
Schmidt, Carl F., the cerebral circulation in health and disease, 106
Tarlov, I. M., plasma clot suture of peripheral nerves and nerve roots—rationale and technique, 106
Winters, Eunice, the collected papers of Adolph Meyer, Vol. I, 341
Brain biopsies, comparative morphologic and histometabolic studies of nerve cells in, and topectomies, *177
embolism, observations on, with special reference to the mechanism of hemorrhagic infarction, T92
tissue, production of experimental encephalomyelitis with calcium acetate compound extracted from, *394
tissue, virus as a primary plasmacytogenic agent in, *408
tumors, human, the transplantation of into animal hosts, *40
, of neuroectodermal origin. Histogenetic considerations. I. Neuroepithelioma, T99
vascular changes in the, in a fatality following electroshock, *309

CALCIUM acetate compound, production of experimental encephalomyelitis with, extracted from brain tissue, *394
Campbell, see Hyde, John B., *408
Cares, Reuben M., D103
Carcinoma, metastatic, the encephalitic form of, T102
Cats, the effect of morphine on, with hypothalamic lesions, *190
Cells, distribution of chromidia in the sympathetic ganglion, in man and dogs with hypertension, *319
Central nervous system, histophysiological effects of arsenic and its derivatives on the, particularly on the third element of the central nervous system, *325
malignant lymphomas within the, T100
pentaquine, isopentaquine, primaquine, and pamaquine, the effects of, on the, of the rhesus monkey, aminoquinolines, neurotoxity of the 8-. III., *231
Cerebellar astrocytoma, *343
Cerebral arteriosclerosis, observations on, *257
histopathologic changes, interpretation of, in cases of schizophrenia, T104
lesions in congenital heart disease, T98
vascular disease, correlation of the zinc sulfate precipitation test with the colloidal gold test in neurosyphilis, and multiple sclerosis, T89

Cerebrospinal, nerve cell changes, hypoglycaemia from islet cell tumor of pancreas with amyotrophy and, *57
Choline esterase distribution in cervical sympathetic ganglia, histochemical and quantitative studies on, *48
Choroid plexus, extraventricular and intracerebellar papilloma of the, *204
Chromidia, distribution of, in the sympathetic ganglion cells in man and dogs with hypertension, *319
Comparative morphologic and histometabolic studies of nerve cells in brain biopsies and topectomies, *177
Cooper, Irving S., and Kernohan, James W., heterotopic glial nests in the subarachnoid space: histopathologic characteristics, mode of origin and relation to meningeal gliomas, *16
Cowen, David, and Wolf, Abner, experimental congenital toxoplasmosis. IV. Genital and secondary lesions in the mouse infected with toxoplasma by the vaginal route, *1
, and Wolf, Abner, experimental congenital toxoplasmosis. V. Lesions in the offspring of mice infected with toxoplasma by the vaginal route. Observations on an associated hepatic injury, *142
Cranial surgery, head rest for experimental, *338
Crosby, R. M. N., see Thompson, R. K., *338

DEGENERATION, secondary, a study (pyramidal tract) of the quantitative response of glia cells in, *82
Denny-Brown, D., the influence of tension and innervation on the regeneration of skeletal muscle, T94
Distribution of chromidia in the sympathetic ganglion cells in man and dogs with hypertension, *319
Donovan, A. M., see Foley, J. M., T89
Dystonia, Hallervorden-Spatz disease and, *125
Dystrophia myotonica and myotonia congenita. Histopathologic studies with special reference to changes in the muscles, *109

EFFECT, the, of morphine on cats with hypothalamic lesions, *190
Electroshock, vascular changes in the brain in a fatality following, *309
Embolism, observations on brain, with special reference to the mechanism of hemorrhagic infarction, T92
Encephalitic form, the, of metastatic carcinoma, T102
Encephalomyelitis, experimental isoallergic, tuberculin type sensitivity to spinal cord antigen in rabbits with, T96
, production of experimental, with calcium acetate compound extracted from brain tissue, *394
Ependymoma: a critical evaluation of classification with report of cases, *295
Epstein, Arthur W., primary massive pontine hemorrhage. A clinico-pathological study, *426
Eros, Gedeon, observations on cerebral arteriosclerosis, *257
Esterase, histochemical and quantitative studies on choline, distribution in cervical sympathetic ganglia, *48
Experimental congenital toxoplasmosis. IV. Genital and secondary lesions in the mouse infected with toxoplasma by the vaginal route, *1
V. Lesions in the offspring of mice infected with toxoplasma by the vaginal route. Observations on an associated hepatic injury, *142
cranial surgery, head rest for, *338
Production of encephalomyelitis with calcium acetate compound extraction of brain tissue, *394
Extraventricular and intra-cerebellar papilloma of the choroid plexus, *204

FEIGIN, Irwin, Geller, Estelle Hecht, and Wolf, Abner, absence of regeneration in the spinal cord of the young rat, *420
Ferraro, A., interpretation of cerebral histopathologic changes in cases of schizophrenia, T104
, and Roizin, L., production of experimental encephalomyelitis with calcium acetate compound extracted from brain tissue, *394
Fisher, Miller, and Adams, Raymond, D., observations on brain embolism with special reference to the mechanism of hemorrhagic infarction, T92
Foley, J. M., Donovan, A. M., and Moloney, W. C., correlation of the zinc sulfate precipitation test with the colloidal gold test in neurosyphilis, multiple sclerosis, and cerebral vascular disease, T89
Fox, M. D., see Hard, W. L., *48
Furtado, Diogo, and Vasconcelos, Marques, spinal teratoma, *384

GANG, Kenneth M., see Globus, Joseph H., *208
Ganglia, cervical sympathetic, histochemical and quantitative studies on choline esterase distribution in, *48
Ganglion cells, sympathetic, distribution of chromidia in the, in man and dogs with hypertension, *319
Gasserion ganglion, the elements of Schwann of the human, and their relationship to the neuron and the satellite glia, T91
Geller, Estelle Hecht, see Feigin, Irwin, *420
Glia cells, a study of the quantitative response of, in secondary degeneration, *82
Glial nests, heterotopic, in the subarach-

noid space: histopathologic characteristics, mode of origin and relation to meningeal gliomas, *16
, elements of Schwann of the human gasserion ganglion and their relationship to the neuron and the satellite, T91,
Gliomas, meningeal, histopathologic charistics, mode of origin and relation to heterotopic glial nests in the subarachnoid space, *16
Globus, Joseph H., brain tumors of neuroectodermal origin. I. Neuroepithelioma, T99
, Gang, Kenneth M., and Bergman, Philip S., torula meningoencephalitis, *208
Granular cell myoblastoma, intracerebral metastatic, *30
Granules, protagon, in the normal sciatic nerve with some observations on the greater splanchnic nerve, *77
Greene, Ralph C., extraventricular and intra-cerebellar papilloma of the choroid plexus, *204
Grzycki, Stanislaw, and Kobusówna, Barbara, histophysiological effects of arsenic and its derivatives on the central nervous system, and particularly on the third element of the central nervous system, *325

HALLERVORDEN-Spatz disease and dystonia, *125
Halpern, L., see Liban, E., *309
Hamartoma, true, of the hypothalamus associated with pubertas praecox, *368
Hard, W. L., Peterson, A. C., and Fox, M. D., histochemical and quantitative studies on choline esterase distribution in cervical sympathetic ganglia, *48
Hassin, George B., D95, D100
Head rest for experimental cranial surgery, *338
Heart disease, cerebral lesions in congenital, T98
Hemorrhage, primary massive pontine, a clinico-pathological study, *426
Hemorrhagic infarction, observations on brain embolism with special reference to the mechanism of, T92
Heterologous transplantation of tumors of the human nervous system: implantation in the eye of the guinea pig, *416
Hiller, Frederick, D93, D96
Histochemical and quantitative studies on choline esterase distribution in cervical sympathetic ganglia, *48
Histometabolic studies, comparative morphologic and, of nerve cells in brain biopsies and topectomies, *177
Histopathologic changes, cerebral, interpretation of, in cases of schizophrenia, T104
Histophysiological effects of arsenic and its derivatives on the central nervous system, and particularly on the third element of the central nervous system, *325
Hyde, John B., and Campbell, Berry, virus as a primary plasmacytogenic agent in brain tissue, *408
Hypertension, distribution of chromidia in the sympathetic ganglion cells in man and dogs with, *319
Hypoglycaemia from islet cell tumor of pancreas with amyotrophy and cerebrospinal nerve cell changes. A case report, *57
Hypothalamic lesions, the effect of morphine on cats with, *190
Hypothalamus of the cat, hypoxemia and the temperature of the, *67
, true hamartoma of the, associated with pubertas praecox, *368
Hypoxemia and the temperature of the hypothalamus of the cat, *67

IMPLANTATION in the eye of the guinea pig, heterologous transplantation of tumors of the human nervous system, *416
Infundibulum, the, and the tuber cinereum of the cat: a contribution to the problem of the role of adenohypophysiohypothalamic relations in the regulation of sexual functions, (Henryk Nowakowski) ab449
Ingram, W. R., see McCrum, W. R., *190
Innervation, the influence of tension and, on the regeneration of skeletal muscle, T94
Interpretation of cerebral histopathologic changes in cases of schizophrenia, T104
Intracerebral metastatic granular cell myoblastoma, *30
Islet cell tumor of pancreas, hypoglycaemia from, with amyotrophy and cerebrospinal nerve cell changes, *57
Isopentaquine, the effects of, pentaquine, primaquine, and pamaquine on the central nervous system of the rhesus monkey, *231

JERVIS, George A., and Koprowski, Hilary, effects of neurotropic viruses on experimental mouse tumors, T98

KENDRICK, John F., see Troland, Charles E., *295
Kernohan, James W., see Cooper, Irving, S., *16
see Kniseley, Ralph M., *416
Kniseley, Ralph M., and Kernohan, James W., heterologous transplantation of tumors of the human nervous system: implantation in the eye of the guinea pig, *416
Kobusówna, Barbara, see Grzycki, Stanislaw, *325
Koprowski, Hilary, see Jervis, George A., T98
Kubik, Charles S., D93

LASSEK, A. M., and Shapiro, W. J., the pyramidal tract. A study of the quanti-

tative response of glia cells in secondary degeneration, *82
Lewey, Frederic H., obituary, *85
Liban, E., Halpern, L., and Rozanski, J., vascular changes in the brain in a fatality following electroshock, *309
Lichtenstein, Ben W., Lindau's disease—pathological observations, T103
Lindau's disease—pathological observations, T103
List, Carl F., D102
Lowenbach, H., hypoxemia and the temperature of the hypothalamus of the cat, *67
Lymphomas, malignant, within the central nervous system, T100

MADOW, Leo, and Alpers, Bernard J., the encephalitic form of metastatic carcinoma, T102
Malignant lymphomas within the central nervous system, T100
Mandeville, Frederick B., see Troland, Charles E., *295
Martin, H. M., D88
Martin, John, the transplantation of human brain tumors into animal hosts, *40
Massive pontine hemorrhage, primary. A clinico-pathological study, *426
McCrum, W. R., and Ingram, W. R., the effect of morphine on cats with hypothalamic lesions, *190
McGrath, John T., spinal paralysis of the dog, T88
Meningeal gliomas, histopathologic characteristics, mode of origin and relation to, *16
Meningoencephalitis, torula. Special article, *208
Metastatic carcinoma, the encephalitic form of, T102
, intracerebral, granular cell myoblastoma, *30
Meyers, Russell, see Schwidde, Jess T., *30
Mice, lesions in the offspring of, infected with toxoplasma by the vaginal route. Observations on an associated hepatic injury, *142
Moloney, W. C., see Foley, J. M., T89
Monkey, rhesus, the effects of pentaquine, isopentaquine, primaquine, and pamaquine on the central nervous system of the, *231
Morphine, the effect of, on cats with hypothalamic lesions, *190
Morphologic, comparative, and histometabolic studies of nerve cells in brain biopsies and topectomies, *177
Morrison, L. Raymond, obituary, *86
and Waksman, Byron H., tuberculin type sensitivity to spinal cord antigen in rabbits with experimental isoallergic encephalomyelitis, T96
Mouse tumors, effects of neurotropic viruses on experimental, T98
Multiple sclerosis, correlation of the zinc sulfate precipitation test with the colloidal gold test in, neurosyphilis, and cerebral vascular disease, T89
Muscle, skeletal, the influence of tension and innervation on the regeneration of, T94
Myoblastoma, intracerebral metastatic granular cell, *30
Myotonia congenita, dystrophia myotonica and. Histopathologic studies with special reference to changes in the muscles, *109
Myotonica, dystrophia, and myotonia congenita. Histopathologic studies with special reference to changes in the muscles, *109

NEDZEL, A. J., distribution of chromidia in the sympathetic ganglion cells in man and dogs with hypertension, *319
Nerve cell changes, hypoglycaemia from islet cell tumor of pancreas with amyotrophy and cerebrospinal. A case report, *57
cells, comparative morphologic and histometabolic studies of, in brain biopsies and topectomies, *177
, sciatic, protagon granules in the normal, with some observations on the greater splanchnic nerve, *77
, splanchnic, protagon granules in the normal sciatic nerve with some observations on the greater, *77
Nervous system, central, the effects of pentaquine, isopentaquine, primaquine, and premaquine on the, of the rhesus monkey, *231
histophysiological effects of arsenic and its derivatives on, and particularly on the third element of the central nervous system, *325
, heterologous transplantation of tumors of the human: implantation in the eye of the guinea pig, *416
Netsky, Martin G., see Berkman, James, T100
, Spiro, D., and Zimmerman, H. M., Hallervorden-Spatz disease and dystonia, *125
Neuron, the elements of Schwann of the human gasserian ganglion and their relationship to the, and the satellite glia, T91
Neuropathologists, American Association of, Annual Meeting, Atlantic City, June 11, 1950, T88
Neurosyphilis, correlation of the zinc sulfate precipitation test with the colloidal gold test in, multiple sclerosis, and cerebral vascular disease, T89
Neurotoxity of the 8-aminoquinolines. III. The effects of pentaquine, isopentaquine, primaquine, and pamaquine on the central nervous system of the rhesus monkey, *231
Neurotropic viruses, effects of, on experimental mouse tumors, T98
Nordenstam, Hans, see Ringertz, Nils, *343

OBITUARIES: Frederic H. Lewey, *85
L. Raymond Morrison, *86
Observations on cerebral arteriosclerosis, *257

PAMAQUINE, the effects of pentaquine, isopentaquine, primaquine and, on the central nervous system of the rhesus monkey, *231
Pancreas, hypoglycaemia from islet cell tumor of, with amyotrophy and cerebrospinal nerve cell changes. A case report, *57
Papilloma, extraventricular and intra-cerebellar, of the choroid plexus, *204
Paralysis, caused by penicillin injection; mechanism of complication—a warning, *158
spinal, of the dog, T88
Penicillin injection, paralysis caused by; mechanism of complication—a warning, *158
Pentaquine, the effects of, isopentaquine, primaquine, and pamaquine on the central nervous system of the rhesus monkey, *231
Perlmutter, I., see Tarlov, I. M., *158
Peterson, A. C., see Hard, W. L., *48
Plasmacytogenic agent, virus as a primary, in brain tissue, *408
Plexus, choroid, extraventricular and intracerebellar papilloma of the, *204
Pontine hemorrhage, primary massive. A clinico-pathological study, *426
Praecox, true hamartoma of the hypothalamus associated with pubertas, *368
Precipitation test, correlation of the zinc sulfate, with the colloidal gold test in neurosyphilis, multiple sclerosis, and cerebral vascular disease, T89
Primaquine, the effects of pentaquine, isopentaquine, and pamaquine on the central nervous system of the rhesus monkey, *231
Primary massive pontine hemorrhage. A clinico-pathological study, *426
Production of experimental encephalomyelitis with calcium acetate compound extracted from brain tissue, *394
Protagon granules in the normal sciatic nerve with some observations on the greater splanchnic nerve, *77
Pubertas praecox, true hamartoma of the hypothalamus associated with, *368
Pyramidal tract, the. A study of the quantitative response of glia cells in secondary degeneration, *82

REGENERATION, absence of, in the spinal cord of the young rat, *420
the influence of tension and innervation on the, of skeletal muscle, T94
Richardson, J. Clifford, see Tom, Mary I., *57
Richter, Richard, true hamartoma of the hypothalamus associated with pubertas praecox, *368
Ringertz, Nils, and Nordenstam, Hans, cerebellar astrocytoma, *343
Robson, John Theodore, protagon granules in the normal sciatic nerve with some observations on the greater splanchnic nerve, *77
Roizin, Leon, D97
comparative morphologic and histometabolic studies of nerve cells in brain biopsies and topectomies, *177
see Ferraro, A., *394
Rozanski, J., see Liban, E., *309

SABISTION, David C., see Berthrong, Morgan, T98
Sahyoun, Philip F., see Troland, Charles E., *295
